Social media

Twitter
Facebook
Musical.ly
Tumblr
Kik
WhatsApp
Vero
GroupMe
House Party
Live.ly
Live.me
YouNow
Oovoo
Etc.

Hidden Apps

Apps can be displayed as a picture of a calculator / phone / vault / etc. but can secretly keep an album of pictures, videos and other info someone might want to keep secret.

Secret Calculator
Hide It Pro

Please Note: This is not an exhaustive list but rather a starting point of apps to be on the lookout for. More exhaustive lists can be found online as well as by searching the app store.

Considerations:

Can my students use social media wherever and whenever they want? What limits do we have in place? Why?

Have I ever had a conversation with my students about their internet and phone usage?

Does my student have unfiltered access to the internet on any device they use daily?

When was the last time I asked my student about their social media and internet usage?

When was the last time I took the time I looked at my students' personal device?

Is my student on the same page as me about their social media?
